

PERAPlus 401(k) Plan

Create the future you want.

PLAN OVERVIEW

COLORADO
PERA®

The PERAPlus 401(k) Plan is a voluntary retirement benefit plan that offers you one of the best opportunities to save for your retirement.

By joining today, you can supplement your retirement savings, access investment advice, and have loan benefits—all rolled into one convenient package.

Benefits of Participation

Reduced Taxes

Your pre-tax contributions reduce your current taxable income dollar-for-dollar, which can lower your federal and state income taxes.

Tax-Free Distributions

If you contribute to the Roth account within the PERAPlus 401(k) Plan, contributions and any earnings grow tax-free. Qualified distributions from your Roth account will also be free from federal, state, and local income taxes.

Easy to Save

With automatic payroll deductions, it's easy to save and you won't be tempted to spend your savings because the money will already be tucked away in your account.

Access to Advice

Empower offers investment advisory services—online advice (no-cost service) and professional management (fee-based services) powered by Financial Engines.

Personal Control

You decide how much to contribute to the Plan and choose how to invest your contributions.

Supplement Other Retirement Savings

Save for things in retirement like travel or pay health care premiums and supplement your PERA Defined Benefit or Defined Contribution Plan account.

Eligibility

All employees of PERA employers and retirees who have returned to work for PERA employers are immediately eligible to join the Plan. If your employer has adopted the Roth option, you may make Roth contributions. There are no minimum service requirements to fulfill.

Enrolling is Easy

Check if your employer offers online enrollment. If not, follow the instructions below:

- Complete the *401(k) Contribution Authorization Form* and submit it to your employer's payroll office.
- Enter your personal information and make your investment elections online. If you do not make your investment election before your first contribution is made, it will be directed to the PERAdvantage Target Retirement Date Fund that is closest to your date of birth and an expected retirement at age 65.

Distributions

You can take a distribution of your PERAPlus 401(k) Plan account if you are still working at age 59½ or older. If you leave PERA-covered employment, you have several choices regarding the money in your Plan account:

- Leave the money in the Plan until you must start required minimum distributions according to IRS guidelines.
- Request installment payments at any time after reaching age 59½.
- Roll over the balance to another qualified plan.
- Take the money in cash. Distributions may be subject to taxes.
- Consider using a portion of your account balance to create lifetime income through immediate annuities or a qualified longevity annuity contract (QLAC).

Roth Distributions

Distributions from your PERAPlus 401(k) Roth account may be tax-free for federal, state, and local income tax purposes provided they are qualified distributions. A qualified distribution must meet the following criteria:

1. The first Roth contribution has been in the Plan for at least five tax years (or sooner, if assets were in a Roth account in another employer-sponsored plan and then rolled over into the Plan), and
2. You are either at least age 59½ or disabled, or the distribution is to be made to a beneficiary after your death.

Withdrawals

There are several types of in-service withdrawals available, including hardship withdrawals if you meet certain IRS-defined qualifications.

If you want to take a less active role in choosing your investments, choose a Target Retirement Date Fund based on an expected retirement date at age 65 and your date of birth (see chart below). Target Retirement Date funds are designed to automatically grow more conservative as you reach your retirement date.

Fund	Date of Birth Range
PERAdvantage Income Fund	December 31, 1957, or earlier
PERAdvantage 2025 Fund	January 1, 1958–December 31, 1962
PERAdvantage 2030 Fund	January 1, 1963–December 31, 1967
PERAdvantage 2035 Fund	January 1, 1968–December 31, 1972
PERAdvantage 2040 Fund	January 1, 1973–December 31, 1977
PERAdvantage 2045 Fund	January 1, 1978–December 31, 1982
PERAdvantage 2050 Fund	January 1, 1983–December 31, 1987
PERAdvantage 2055 Fund	January 1, 1988–December 31, 1992
PERAdvantage 2060 Fund	January 1, 1993–December 31, 1997
PERAdvantage 2065 Fund	January 1, 1998, or later

Generally speaking, Target Retirement Date Funds target a certain date range for retirement, or the date the participant plans to start withdrawing money. Participants can select the fund that corresponds to their target retirement date. Target Retirement Date Funds are designed to rebalance to a more conservative approach as the target retirement date nears. An investment in a Target Retirement Date Fund is not guaranteed at any time, including on or after the target date.
