Read the information for each investment option carefully before you invest or send money. Fund fact sheets, which include the objective, investment strategy, as well as more information on the underlying investments in each option, are available through coperaplus.org.

If you want to take a less active role in choosing your investments, choose a Target Retirement Date Fund based on an expected retirement date at age 65 and your date of birth (see chart below). Target Retirement Date funds are designed to automatically grow more conservative as you reach your retirement date.

Fund	Date of Birth Range
PERAdvantage Income Fund	December 31, 1957, or earlier
PERAdvantage 2025 Fund	January 1, 1958–December 31, 1962
PERAdvantage 2030 Fund	January 1, 1963–December 31, 1967
PERAdvantage 2035 Fund	January 1, 1968–December 31, 1972
PERAdvantage 2040 Fund	January 1, 1973–December 31, 1977
PERAdvantage 2045 Fund	January 1, 1978–December 31, 1982
PERAdvantage 2050 Fund	January 1, 1983–December 31, 1987
PERAdvantage 2055 Fund	January 1, 1988–December 31, 1992
PERAdvantage 2060 Fund	January 1, 1993–December 31, 1997
PERAdvantage 2065 Fund	January 1, 1998, or later

Generally speaking, Target Retirement Date Funds target a certain date range for retirement, or the date the participant plans to start withdrawing money. Participants can select the fund that corresponds to their target retirement date. Target Retirement Date Funds are designed to rebalance to a more conservative approach as the target retirement date nears. An investment in a Target Retirement Date Fund is not guaranteed at any time, including on or after the target date.
